

## **Quality Assurance Policy**

### **Introduction**

For any organisation to be successful it is essential that users' requirements are fully met. Dyslexia Cornwall is committed to providing the best services possible and needs to be able to demonstrate that it provides quality services and manages the organisation efficiently and effectively.

In an increasingly competitive market it is critical that Dyslexia Cornwall is able to evidence our commitment to quality to partners, users, potential employees and volunteers

### **What is Quality Assurance?**

Quality assurance is the process of verifying or determining whether products or services meet or exceed user expectations.

Quality assurance is a process-driven approach with specific steps to help define and attain goals. This process considers design, development, implementation and evaluation. It is essentially about learning what we are doing well and striving to do it even better. It also means finding out what we may need to change to make sure we meet the needs of our users.

### **Quality Assurance in Practice**

As a user led organisation we endeavour to understand current and future users' needs and will strive to meet users' requirements and exceed expectations at all times. There is a shared understanding throughout the organisation about what we are trying to achieve and how we are trying to achieve it. This involves:

- a) Agreeing quality objectives, reviewing their relevance and monitoring performance against objectives regularly.
- b) Ensuring that our users know what to expect from Dyslexia Cornwall
- c) Having a Board and management team in place who can provide clear vision and direction.
- d) Having all policies and procedures documented and reviewed
- e) Having a Business Plan that details our strategic priorities for the next three years
- f) Having a Work Plan with measurable outcomes for each project
- g) Developing a Personal Development Plan for each employee to ensure that they have the relevant skills and expertise

- h) Using effective communication tools to keep everyone informed
- i) Actively participating in the audit process, both internal and external, in order to drive continual improvement.
- j) We have a technical infrastructure in place capable of supporting the delivery of our aims and strategic priorities.
- k) We have the necessary resources in place to support the delivery of our aims and strategic priorities.
- l) We have monitoring procedures in place to ensure that policies and procedures are being implemented and are effective.
- m) We have positive relationships with our partners and others working in our field to enable us to share experiences and resources, to pool expertise and work in partnership in the best interest of our users.
- n) We evaluate all activity on a continual basis and use the feedback gained to inform the development of our policies, Business Plan, Work Plans and Personal Development Plans.

### **Quality Marks**

There are various industry quality marks that demonstrate that an organisation has effective quality management systems in place. Dyslexia Cornwall will hold or be working towards at least one quality mark that is easily recognised within our field and seen to be synonymous with quality. The quality mark held will be assessed on an annual basis to ensure that it is still the most relevant for the organisation.
